ESTABLISHED 1866.

SOMERVILLE, TENNESSEE, FRIDAY, JULY 14, 1916.

NEW SERIES: VOL. X, -NO. 8

## "No, Bob—you needn't give up school"

I knew I could count on you. Man to man, I will own that my sickness has been expensive. There hasn't been a cent coming in from the office, either. But, thank Providence, we haven't had to touch our bank account.

My AETNA DISABILITY POLICY is providing our meal ticket, son. \$100 coming in regularly every four weeks—it would have been \$150, if I'd been in the hospital. Later I can depend on \$12.50 weekly while I'm stretching my legs outdoors, to get in proper shape.

Some time I want to tell you about this sensible way of protecting yourself. And if I know anything, you'll decide to

## AETNA-IZE

as soon as you're old enough. It makes a fellow independent of friends, relatives and charity, when he's flat on his back. And a little thing—even a misstep—may lay you up. Then, if you marry, it's only a square deal—true sportsmanship—to give your wife this protection. Any man can afford it.

Interesting? Yes, it is. Next time you go by his office, suppose you drop in and get the whole story from your friend—

## TAKE THE STOCK TO YOUR FAIR

## COUNTY FAIRS ARE POPULAR

Good Place to Advertise the Fact That Your Live Stock is What It Ought to Be—Successful Farmers Advise All the Time.

(By R. M. Murphy, Division of Extension, University of Tennessee.)

Have you picked out the animals you intend to show at your County Fair this fall? If you expect to win, it's time for the selection. If you are really breeding something that your neighbors would be interested in there is no better place to advertise than at your County Fair. Your neighbors will be there. Surprise them a little by showing them something good.

Of course, they haven't been taking your breeding operations seriously and the chances are that if they wanted to buy an animal of the breed you have they would buy from somebody who carries a big advertisement in the paper. Why? Simply because you haven't convinced them that you have just as good stock as the other man.

If you have a good animal show him. You can show him to more people in one day at the County Fair than would come to your farm to see him in ten years. Get a catalog and pick out your animals for each class. Make it at least interesting for the man who has been walking away with the ribbons.

A remark that is commonly heard at the fairs is: "I've got one better than that at home." This may be true and doubtless is in many cases, but if the man who makes such a statement had any public spirit and interest in the improvement of conditions in his county or was awake to his own opportunity he would be ashamed to own the fact.

The greatest problem confronting the average breeder is to keep his animals up to standard. A man may buy a herd of animals of the most popular type today and go off by himself for ten years to conduct his breeding operations. Upon returning he will, except by the greatest accident, find that he is producing something far different from that in popular demand. The surest way to know what you have is by comparison with others. The County Fair is your opportunity.

## McRee Nominee For Representative.

At a meeting of the democratic executive committee of Fayette county held in the court house last Saturday Hon. F. J. McRee was declared the nominee of the democratic party to succeed himself, there being no other candidate to qualify under the rules of the committee as published following its former meeting.

Under the resolution of the committee governing the primary to elect district committeemen, the following being the only ones to qualify in the districts named, were declared members-elect of the new committee which will be organized when the committee meets on August 8: the new committeemen are as follows, Dist. 1, W. S. Newby, 2, J. B. Foote, 3, J. A. Johnston, 6, W. O. Wilder, 8, Stitt Matthews, 11, L. F. Chambers, 14, T. A. Crawford. In the tenth district two candidates qualified, J. H. Knox, present committeeman, and A. S. Waller. The county committee ordered an election held in the tenth district for the purpose of electing a committeeman. In the remaining seven districts the new committee will have to fill the vacancies when it meets in this city on the 8 of August.

As stated above, the new committee will meet in the court house on August 8 for the purpose of organizing for the following two years. At that time the eight committeemen from the districts 1, 2, 3, 6, 8, 10, 11, and 14 will elect members to fill the vacancies in districts 4, 5, 7, 9, 12, 13, and 15, six members of the central committee, a chairman and a secretary, all to serve until the next legislative primary which will be in 1918.

Representative McRee has reason to feel elated over his successful nomination without opposition to a second term in the legislature from this county. This re-nomination shows the appreciation of his services by his constituents and an endorsement of his work while at Nashville two years ago.

## The Strong Withstand the Heat of Summer Better Than the Weak

Old people who are feeble, and younger people who are weak, will be strengthened and enabled to go through the depressing heat of summer by taking regularly Grove's Tasteless Chill Tonic. It purifies and enriches the blood and builds up the whole system. 50c.

## Lipsky Remodeling Plans.

Contract has been let by Lipsky Brothers for remodeling their building occupied by their mercantile business on the southwest corner of the public square and making it in effect a new building, so far as the interior goes. The building recently vacated by Rhea Drug Company will be connected to the present main room of the Lipsky building by two immense arches, making practically one room of the whole. The former Rhea building will be used by the millinery and ladies ready-to-wear departments, the dry goods and notions departments and shoe department will remain as at present, and the gentlemen's furnishing and clothing departments will occupy the south room now occupied by the millinery department. The rear of the building which has been used by the clothing department will be used for furniture and carpets.

The steps to the second story will be torn away from the corner and plate glass show windows put in the corner, and the steps put in the interior of the building, the second story being used entirely by the Lipsky business. In fact the new plans contemplate a mammoth business to occupy the entire three buildings, both lower and upper stories, making the largest floor space Somerville has ever had occupied by a single firm.

## Little Hatchie Association.

The Little Hatchie Baptist Association, will meet in the Moscow Baptist Church, Moscow, Tennessee, July 21-23. The Association takes in part of four counties, Fayette, Hardeman, Madison, and Haywood. The Association composes twenty churches and each church is expected to send from four to fifteen messengers, others outside the Association will attend. It is expected that several hundred people will visit Moscow during the coming Association. Prominent speakers are on the program and every effort possible is being put forth for a very successful meeting. The Moscow people are looking forward for a big crowd and a great meeting. Let every body be in Moscow at 10 a. m. promptly.

## Lax-Fos, A Mild, Effective Laxative & Liver Tonic Does Not Grip nor Disturb the Stomach.

In addition to other properties, Lax-Fos contains Cascara in acceptable form, a stimulating Laxative and Tonic. Lax-Fos acts effectively and does not grip nor disturb stomach. At the same time, it aids digestion, arouses the liver and secretions and restores the healthy functions. 50c.

## Moscow.

The lair of a couple of "blind tigers" was discovered Saturday in town and officers will probably soon have them in the toils. This is a good step toward stopping the sale of the stuff each Saturday in Moscow which if allowed to continue will result in the death of some one, or serious trouble in other ways. We wish to commend the town officials for their vigilance in this way.

A. B. Ashford is erecting a building for H. F. Bryant Esq. which will be used for housing the two hearses owned by Esq. Bryant.

In the election August 3, five members of the County Board of Education, three members of the District Advisory Board are to be voted for. These are very important officers and greatly concern our people who should see that able, progressive and sensible men are chosen to fill these places. A constable will also be voted for, and a Sheriff, Trustee, Assessor and Attorney General.

Material is on the ground ready for the erection of the H. J. Hazlewood home in East End. A. B. Ashford has the contract.

R. L. Parker of Whiteville has arrived and assumed charge of the local gin for the season.

R. L. Reeves has moved his barber shop to the hotel. Andrew Smith the former occupant of the place, having moved to Somerville.

Mrs. W. L. Jewell and children have returned from a weeks visit with relatives east of town.

J. Weinstein had as his guest the week gone his mother, Mrs. E. Weinstein of Memphis.

Mrs. L. M. Smith and daughters are visiting Mrs. J. D. Crossett.

Misses Roena Rich and Ethel Hood from the delta country are guests at the home of Mr. and Mrs. C. H. Rich.

Miss Francis Seales is spending the summer with relatives in Bonham, Texas.

Mr. Business man of Moscow, don't wait until something serious happens, but act now and put a stop to the sale of whiskey in this town every Saturday.

L. W. Robertson is acting agent for the present at Burnsville, Miss.

The Baptist revival meeting begins this week. Good preaching and singing is assured.

Keep the election of August 3 in mind and prevail with able men to run for the public school boards. This will be one good start toward a better local school.

## SUCCESS WITH CRIMSON CLOVER

Begin Now If You Would Get Your Land Ready For This Crop

## PREPARE ANY SOIL WELL

Seeding May Be Done in August If Land Has Been Summer-tilled and Seed Bed Made Ready—if Possible, Seed Just After Rain.

(By J. C. McAmis, Division of Extension, University of Tennessee.)

On medium poor and rich lands success with crimson clover may be expected when the soil has thorough midsummer preparation, and if the seeding is done in August.

Lands that are very rich do not require the work that the poorer ones do, but even on the best of soils careful preparation of the seed bed shows in the crop harvested.

The fact that crimson clover is the best winter crop for Tennessee when used as green manures, cover crops and pastures is creating greater interest in it each year.

Thorough midsummer breaking is necessary to insure a thick, productive stand. Breaking may be done with the subsoil plow alone, provided there is little vegetative growth, otherwise the turn plow is necessary. After breaking keep the land free from weed growth and prevent the evaporation of moisture by frequent disking and harrowing. Before seeding, the land should be made firm with a roller. Above all, do not sow on loose land.

If the land has not grown crimson clover before, inoculate the soil with the soil in a few hundred pounds of soil from some field that has grown the clover. Disk in the soil immediately. Do this on a cloudy day or late in the afternoon.

To soils that lack phosphorus ap-

ply 200 to 300 pounds of acid phosphate, disked into the land before seeding. Lime, also, may do some good, but is not essential to a successful crop. If applied, it should be mixed well with the soil before seeding is done.

Seeding is done between August 1 and September 1, preferably just after a rain. Fifteen pounds of seed will be necessary to each acre. But to get the greatest returns from seed sown the soil must be summer tilled and seed bed made ready for next August.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists. Take Hall's Family Pills for constipation.

## NOTICE

I will send about 26 of the old Deed Index books to Nashville to be recovered, and any one desiring to look over the records will please call before August 1st, 1916, as they will probably be out of the office two weeks.

J. W. MATTHEWS, Register.

BEN FRANKLIN SAID

Save a little of thy income and thy hide bound pocket will soon begin to thrive and will never again cry with the empty belly-ache; neither will creditors insult thee, nor want oppress, nor hunger bite—nor will nakedness freeze thee. The whole hemisphere will shine brighter, and pleasure spring up in every corner of thy heart. **HE WAS RIGHT**

Just plain, common horse-sense ought to teach every man that Franklin was absolutely right, just as sure as two and two make four. Creditors cannot insult you, nor can Want press you if you have prepared for them by having something in the bank; besides, your money is SAFE in the bank, not only from fire or burglars, but from your own extravagance.
